

Jasmine Hybrid Smart Switch: Mechanical Installation Manual

Product Specifications

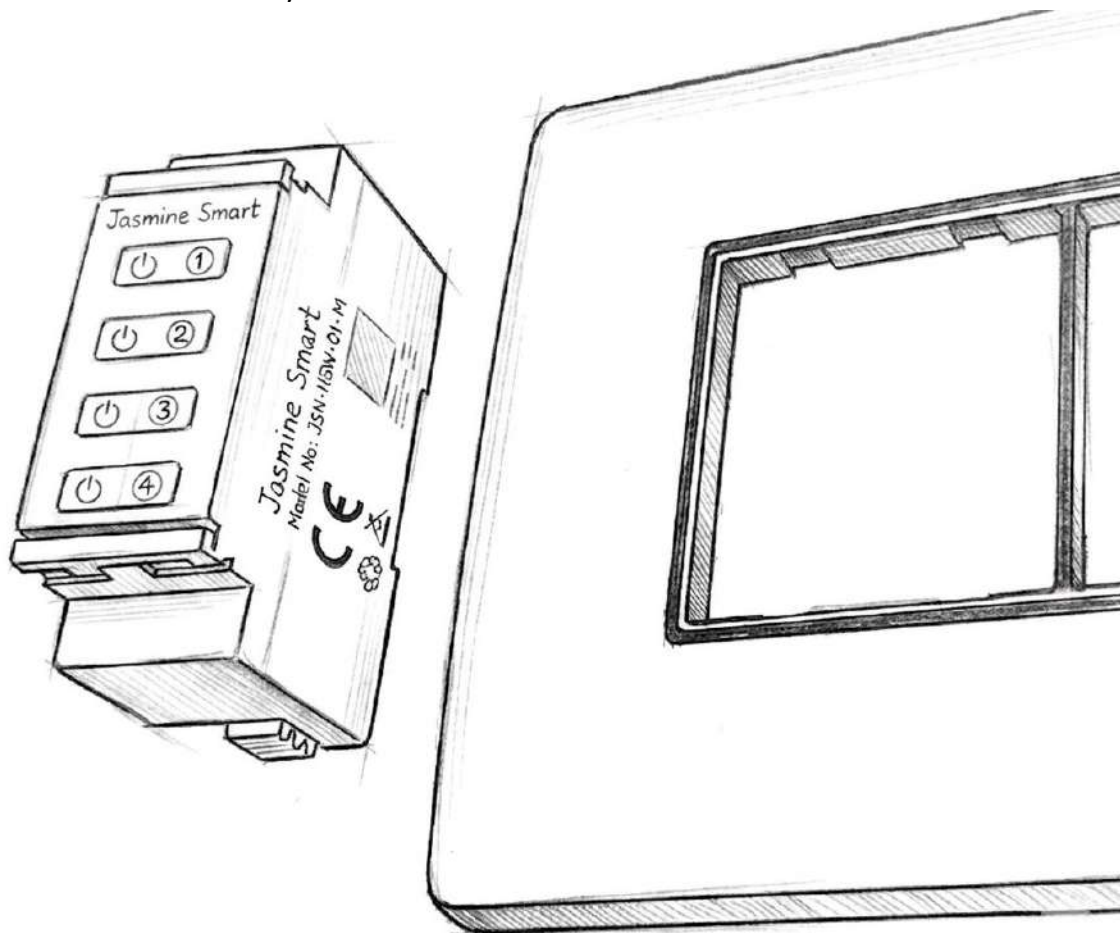

- **Device:** Jasmine Hybrid Smart Switch
- **Brand:** Jasmine Smart
- **Model Number:** JSH-HSW-01-N

⚠ Important Safety Notice

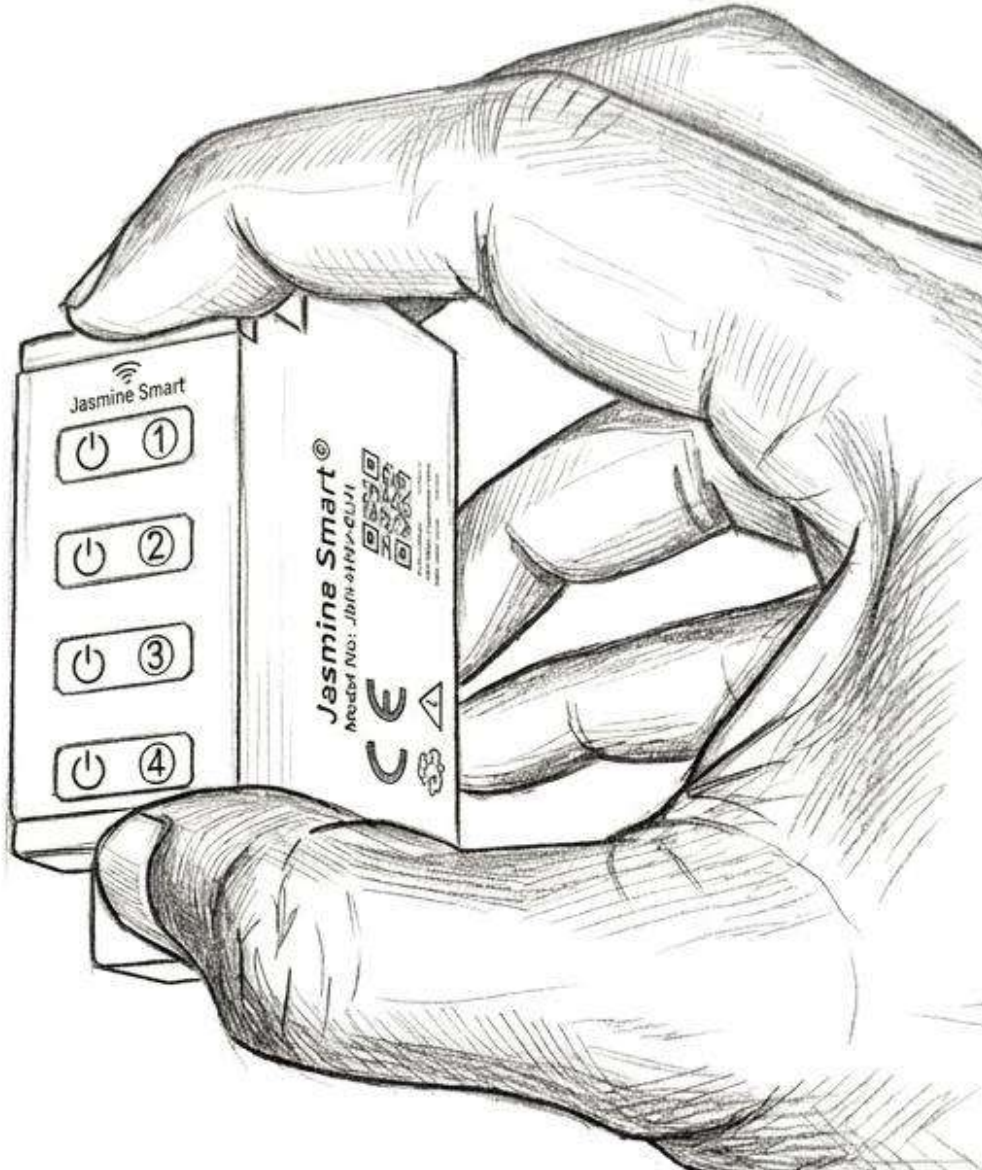

Before you begin: Ensure that all power to the modular board is completely turned off at the main circuit breaker to prevent electrical hazards during installation.

Mechanical Fitting Instructions

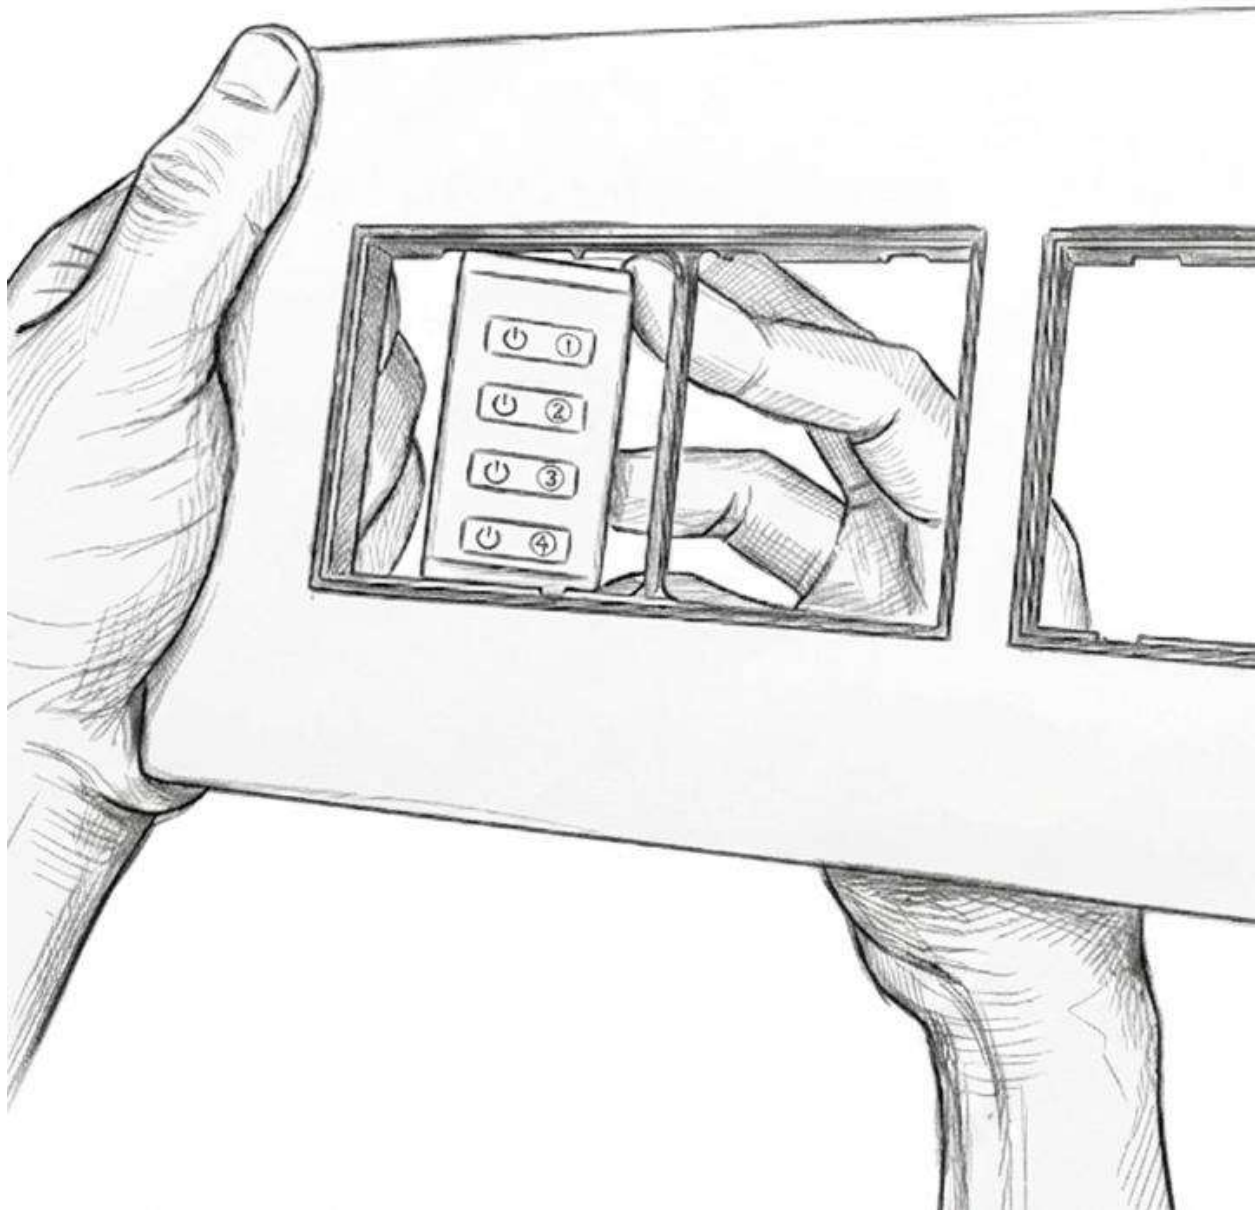

Please adhere to the following standardized procedures to ensure the secure and proper mechanical installation of your smart switch module:

Step 1: Engage the Latches Grip the smart switch module securely. Using your thumb and index finger, press the top and bottom latches together firmly at the same time.

Step 2: Align and Insert While maintaining pressure on both latches, angle the device slightly. Carefully guide one corner of the smart module's front face into the designated switch receptacle on the modular board.

Step 3: Secure the Module Push the module fully straight into the cavity. The latches will expand and securely lock the device into the board. You will hear an audible "click" sound when the switch is properly and safely seated.
